

Bringing the Best of Asia to Europe

Authentic Asian Flavors, Direct to Your Market

South Export Alliance is a dynamic import company based in Belgium.

We started with a passion for bringing the best of Vietnam to Europe, beginning with high-quality coconut products sourced from Bến Tre – famously known as the “coconut capital” of Vietnam. This region is home to a wide variety of coconuts that grow naturally in its rich tropical environment. To ensure exceptional quality and sustainability, we collaborate with trusted brands that prioritize environmentally friendly practices and fair support for local farmers.

South Export Alliance is the commercial name of CAMOS SRL, and we are proud to be the exclusive distributor of COCOXIM coconut water in Belgium.

As our network and expertise grow, so does our product portfolio. Today, we are proud to offer more of Vietnam’s iconic and beloved products to our customers. In addition to coconut-based goods, we now import Saigon Beer, a symbol of Vietnamese brewing tradition, and Bảo Long seasoning cubes, known for bringing authentic Vietnamese flavors to kitchens worldwide.

We are also expanding our reach across Europe. In addition to Belgium, we now distribute our products in France, Denmark, Germany, Lithuania, and the Netherlands — continuing our mission to connect European markets with Vietnam’s finest offerings.

At South Export Alliance, our mission is to deliver premium, carefully selected products that reflect the rich culture, flavor, and craftsmanship of Vietnam — while maintaining a strong commitment to quality, sustainability, and customer satisfaction.

The Taste of Vietnam's Spirit

333 is the first canned beer brand produced in Vietnamese since 1985.

333 beer is the result of combining the essences of **three nations**: Hallertau hops from Bavaria (Germany), always preserved below 10 degrees Celsius to retain their richness, combined with a formula and yeast inherited from France, and brewed by the talent and spirit of SABECO's brewmasters.

The harmonious blend of these three essences brings forth the rich aroma and distinctive flavor of 333 Beer.

The experience of 333 Beer is an experience of the rich flavor legend continuously inherited and preserved for over **150 years**.
